

# UNIFOLD®500

TPS RENTAL SYSTEMS IBC

**UNIFOLD®500** is designed specially for storage and transportation of liquid products. The advanced features of UNIFOLD® overcome the shortcomings of many of the rival bag in box systems. Easy to clean and assemble with no parts to loose, the UNIFOLD® corresponds to the requirements concerning hygiene standards of the food and cosmetic industries. It is a perfect choice if you need your container to fit onto an EUR container.

EFFICIENT SOLUTIONS

# UNIFOLD®500

## Specifications
